MCGILLSMITH

1941 SEED PRICE LIST 1941

PASTURE MIXTURES

CASTLEHILL MIXTURE is offered as usual in four types of mixture.

No. 1. For use when Perennial Ryegrass is harvested for seed.

No. 2. Is compounded for medium soils.

No. 3. For light sandy soil—using drought resisting species.

No. 4. For moors or peaty soils.

per acre (45 lbs.). 62/6

No. 5. Lengthening the Grazing Season Mixture. A mixture composed of the best grazing strains available.

per acre (38 lbs.). 81/-

No. 6. Peat or moss land mixture.

per acre (46½ lbs.). 57/-

No. 7. Sandy Soil Mixture.

per acre (47½ lbs.). 67/-

No. 15. One Year's Hay and One Year's Pasture Mixture.

per acre (33 lbs.). 43/3

No. 16. One Year's Hay and 2-3 Year's Pasture.

per acre (38 lbs.). 52/6

No. 17. A Mixture for One Year's Hay.

per acre (34 lbs.). 35/-

No. 18. Permanent Hay Mixture for Heavy Soils.

per acre (29½ lbs.). 35/6

No. 19. Permanent Hay for soils not suited to Timothy.

per acre (34½ lbs.). 53/6

We will be pleased to give you details of these mixtures on receipt of your enquiry.

PRICES SUBJECT TO MARKET FLUCTUATIONS.

January, 1941

DEAR SIR,

It is with genuine regret we find ourselves obliged to suspend the publication of our Research Annual. It is hardly necessary to state the reasons for this change—paper is scarce, we are all urged to economise wherever possible and we are working with a depleted staff. We would say that we are NOT dropping our research work—the need for it is more urgent than ever and we are carrying it on to the fullest extent possible.

Before saying anything further we wish to thank our customers for their splendid response to our Autumn circular. Their co-operation has been of immense value to us and should enable our depleted staff to handle all our orders in good time.

The home-grown crops of grass and clover seeds have been good and the quality is splendid. We were fortunate in having large acreages of most of the grazing types the yield of which was above average and consequently their prices are similar to last season. Continental seeds are naturally scarce and in some cases entirely sold out.

Root seeds are very scarce and we are sorry many of our customers must be disappointed. We are particularly short of our Monkwood Swede and Eldorado Mangold but the supplies we have are being as fairly rationed as possible.

There is one final point we would stress to customers—take early delivery of your seeds. The autumn cereal trade has made evident that transport difficulties are almost certain to be met with and considerable delays in delivery may take place.

In the knowledge that we are doing our best we feel certain our customers will continue their support which is more than ever appreciated in these troubled times.

Yours faithfully,

W. Gill & Smith Ltd.
